

ESG reporting for banks

EBA Pillar 3 extends traditional capital reporting with ESG dimensions. We provide data points, taxonomy mapping, and standardized reporting format.

COMPLIANCE

Workflow tools, datapoints, reports.

ACADEMY

Training, certificates, exam.

What you get

- ✓ GAR (Green Asset Ratio) calculation
- ✓ Banking book ESG reporting
- ✓ Climate risk scenario analysis
- ✓ Consolidated group-level overview

Use case

A Nordic commercial bank uses LexiCompliance EBA Pillar 3 to calculate GAR from the entire loan portfolio, conduct climate risk scenario analyses, and submit quarterly reports to the EBA via standardized XBRL.
