

NIS2 cybersecurity, structured

NIS2 extends cybersecurity requirements to essential and important services across the EU. We provide risk assessment, incident reporting, and governance oversight in one place.

COMPLIANCE

Workflow tools, datapoints, reports.

ACADEMY

Training, certificates, exam.

What you get

- ✓ Cybersecurity risk assessment per asset
- ✓ 24/72-hour incident reporting
- ✓ Supply chain security assessment
- ✓ Governance and accountability mapping

Use case

A Nordic power grid operator uses LexiCompliance NIS2 to manage critical systems, notify authorities within the legal 24-hour window for incidents, and demonstrate board-level approval of the cybersecurity strategy.
